

The board game for playing cards  
on a quest through wonderlands

Video tutorial  
& translations

## GREETINGS

Hear ye, glorious messengers,  
An auspicious quest is in order.  
The Order of Messenger Rabbits  
of the Citadel is ordering a race to  
produce royals to be ordained as  
the new council of thirds. This is the  
highest order a rabbit of this order  
can get:

Visit the royals, procure three  
of their cards, and bring them to  
the citadel, in that order:

Note that when I say "that order,"  
I'm not referring to another Order  
of Messenger Rabbits, nor the order  
that drives this letter, but the order  
of the steps you must take, in order  
to restore order to the realm.

So, hoppity hop, in orderly fashion.  
Don't dawdle—no time to lose!

The White Herald

## OVERVIEW

Go through the realm turn by turn  
making stops on royal land.  
Win the game when you return  
with three royal cards in hand.

THE ACQUISITION requires  
ten points of a royal's suit.  
You may need turns to transpire  
until you have enough loot.

Make THE JOURNEY hex to hex—  
it's free when you take the roads.

Only pay to go on treks,  
or to ride horses and boats.

Wait before crossing hex tiles,  
and unless you're off the board,  
get a new card from the pile—  
that's THE INCREMENT you scored.

## ENDING THE GAME

Return to the **citadel**  
with three royal cards in hand.  
In this race you must excel  
to be the champ of the land.

Before the royal quest starts,  
choose a challenge for the mission;  
look for the circular marks  
that set the winning condition.

- **SIMPLE**: get three royal cards of any title (letter) or suit (symbol).
- **DIVERSE**: get three royal cards of any title, but with three different suits.
- **MONARCHY**: get a K + a Q + a J of any suit.
- **DIVERSE MONARCHY**: get a K + a Q + a J of three different suits.
- **TRIBAL**: get three royals of the same suit.

## SETUP

Up to 4 players

### 1 THE BOARD

To play a JACK RABBITS' match,  
you must first complete a board;  
build a wonderland from scratch,  
to be charted and explored.

The lands you connect and spread  
house the royals from each throne.  
On your first game, go ahead,  
build the sample as is shown.  
Or play normally instead:  
**BUILD A NEW BOARD** of your own.

#### BUILD A NEW BOARD

Place the "citadel" hex first.  
Leave aside the "underground".  
Pile and shuffle all the rest  
(even the small ones) face down.

Deal by tile shape, equal shares—  
there are twelve of every kind—  
as you hand each player theirs,  
the division will be fine.

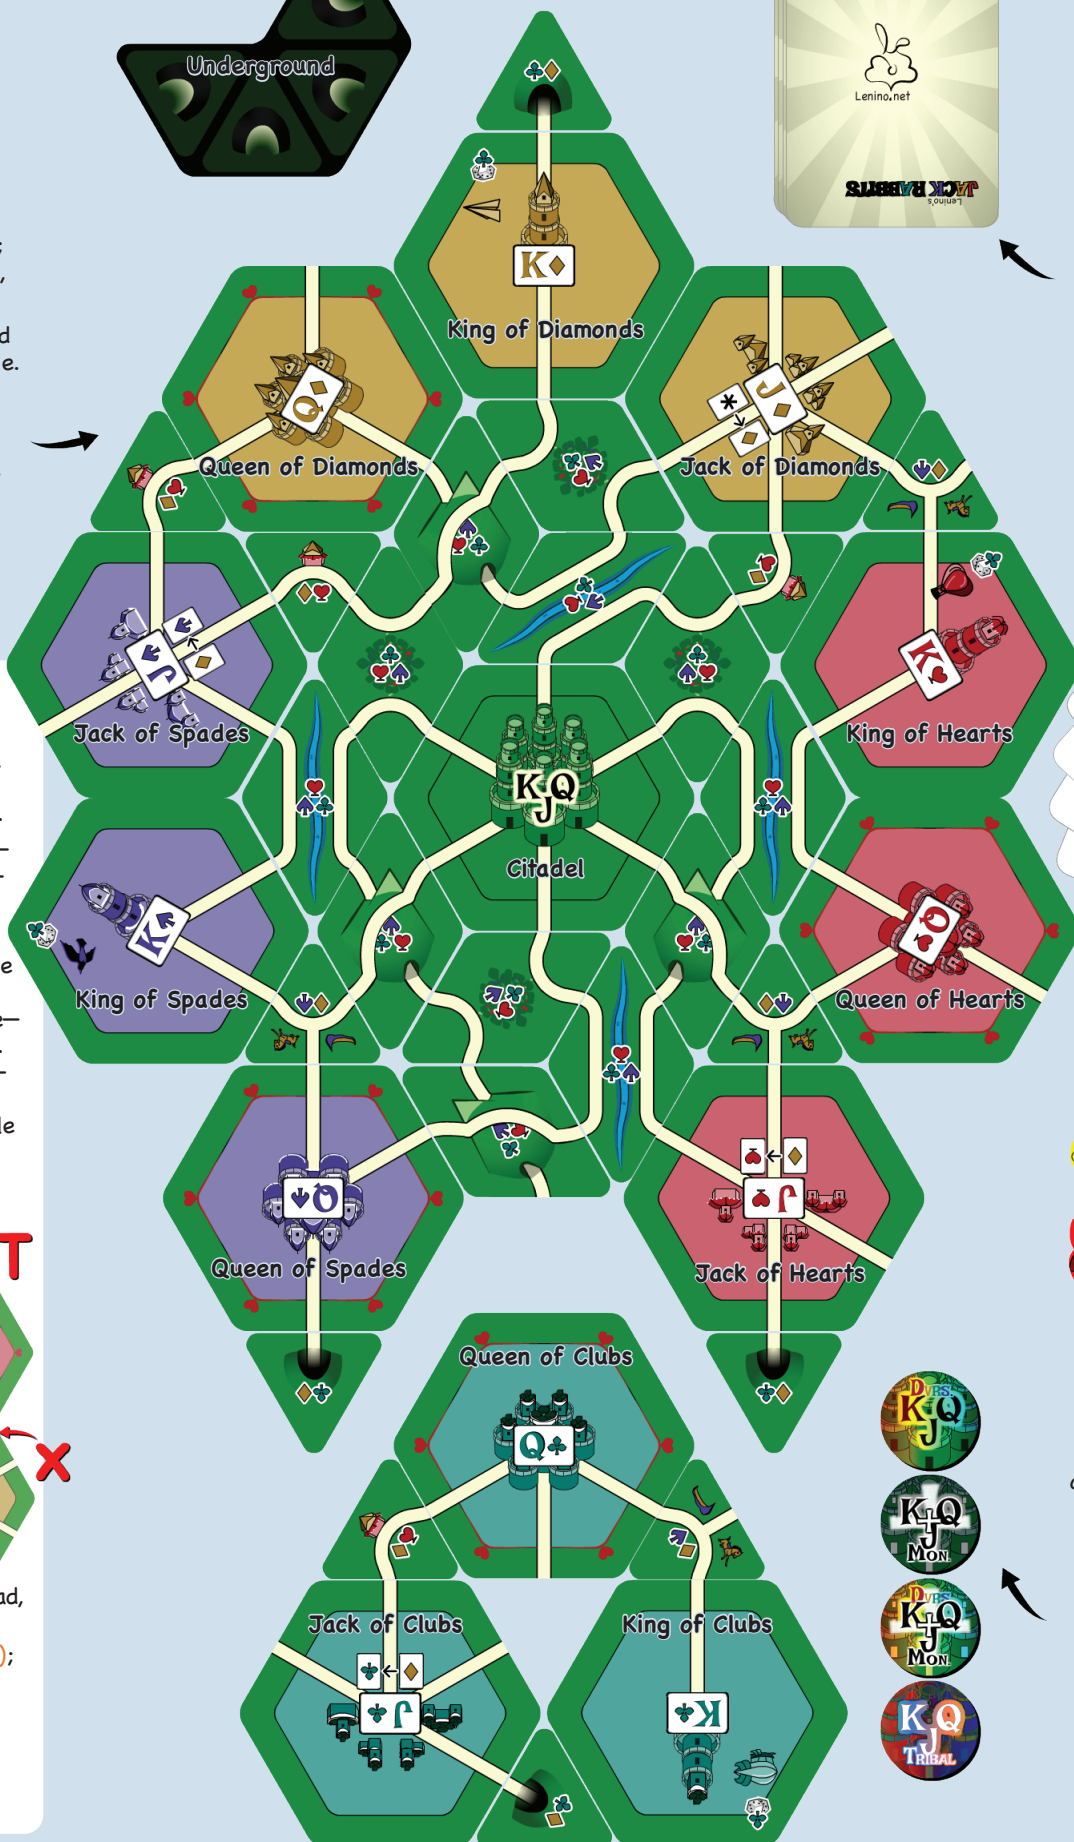

To place them, first choose a style  
between a strict or free pace.

**Strict**: take turns placing one tile—  
the one you flip, you must place.

**Free**: no turns, it's all freestyle—  
flip all the tiles on their face.  
These four tips will be worthwhile  
as guidelines in either case:

- ❖ Don't make **dead ends (T)** on the road,  
or join the **roads of two hexes (X)**.
- ❖ Keep the **triangles' spread broad (!)**;  
it's best if they're not connected.
- ❖ To start an island abroad,  
just place a hex disconnected.
- ❖ The **underground** tile is odd;  
you will not have to connect it.

### 2 THE CARDS

Remove each face card and joker  
after placing the last tile.  
Display them in any order—  
line up this "court" in an aisle.  
Shuffle the rest as in poker—  
make a facedown drawing "pile".  
This holds "pip cards" of a number  
and "aces" of fancier style.

Each player will draw three cards  
to hold as the starting hands.  
They are needed afterwards  
for THE JOURNEY through the lands,  
and for the royal rewards  
THE ACQUISITION demands.

### 3 THE TOKENS

Players will select their rabbits,  
place them on the **citadel**,  
and pick up their matching carrots—  
they get three of these as well.

Choose the royal quest you're on,  
described in **ENDING THE GAME**,  
and place on this hexagon  
the circle that marks this aim.

Now, select a starting player  
and the order of the turns—  
the method for this endeavor  
resides beyond my concerns.

Each turn consists of **4 STAGES**;  
find them on the backside pages.

THE 4 STAGES IN A TURN

After **SETUP**, see this frame to complete a **BASIC GAME**. Learn this part—make this your aim—before playing the **FULL GAME**.

1. THE LOTTERY

Start your turn rolling two dice, and watch the digits unfold. You'll draw one card as a prize if you show one card you hold, proving that its number ties to one of the dice you rolled.

If you're ever holding ten, discard down to nine again. Hold the outcome of the dice; their sum is the **OFF-ROAD PRICE**.

2. THE JOURNEY

From the current hex you're on, you may choose a path to exit. Move your rabbit as a pawn along the road you've selected. And, stop at a hexagon—wait a turn to cross the hexes.

You may move towards your goal, or choose not to move at all. As a transporation mode, you may **PAY TO GO OFF-ROAD**.

3. THE ACQUISITION

You may claim the royal card of the hex where you've set foot: if unclaimed, you may discard ten or more points of their suit, and place a carrot to mark and finalize this pursuit.

There's no cost or consequences for visiting residences. Keep the card claimed in your hands—get **THE INCREMENT** at once.

4. THE INCREMENT

Your turn ends on a hex tile, as long as you're not *off-board*. Get a new card from the pile if your rabbit's on the board. If you find no cards, repile: shuffle the spent lot once more.

If you're ever holding ten, discard down to nine again. No more actions should take place; now the next contender plays.

**OFF-ROAD PRICE**  
Off-road posts along the way charge the total on the dice. It's OK to overpay; you don't have to be precise. The suits allowed where you pay may be combined for the price.  
**PAYING WITH CARDS**  
Show and leave out what you spend; it's "discarded" once you're done. Royal cards will count as ten; aces are valued as one.  
If you spend a royal card, take your carrot off their tile, and in this case, don't discard; it goes back to the court's aisle.

**PAY TO GO OFF-ROAD**  
It is free to make your rounds if you move along the paths. In the **mountains** (farther down) you may use an underpass. Other ways to get around will demand the **OFF-ROAD PRICE**; use the suits marked on the ground and pay the sum of your dice.  
**OFF-ROAD SHORTCUTS**  
The **mountains**, **ivers**, and **woods**, have two roads not far apart. You may switch between these two trekking through the center part. To do this, pay with your suits—in this case, **clubs**, **spades**, or **hearts**.

**OFF-ROAD MERCHANTS**  
You may buy two types of rides on **crossings** where roads are forked. You'll gallop over the tiles to any hex on the board, or row on the seas outside to find a road from this port. As soon as you pay the price, you must move to your next post. Since they're not by the seaside, landlocked merchants won't have boats.  
**OFF-ROAD JOKERS**  
You may buy a joker's card at **taverns** where they reside, and these you keep in your hand until you decide to ride.

**OFF-ROAD RABBIT HOLES**  
Pay to travel **cave** to **cave**—use this trick to hop around. But if you would rather save, take your rabbit **underground**. In this case, the payment's waived—hop on out in the next round.  
**END UP OFF-BOARD**  
You may want to choose a road that takes you out of the grounds, and end your turn off the board where **THE INCREMENT**'s not found. For, after you roll offshore, **THE JOURNEY** goes **underground**. There **THE INCREMENT**'s secured, and you'll leave after a round.

In a **FULL GAME** you'll include these unique traits for each suit.

**CLOVERS** (Clubs)  
**FLY AMONG KING TOWERS**  
Show one card before you roll; if it beats the dice (or ties), pick a tower as a goal for **THE JOURNEY** through the skies. Otherwise, you'll fall *off-board*, but keep your card anyway. And, **THE LOTTERY** still holds: you may match and claim the prize.  
Spend some cards to reach the dice, save your flight, and don't fall off. What you must pay as the price is just how much you were off.  
Use suits of the parting tower to pay the amount that's owed. The clubs' tower has a power: you may spend the card you showed.

**SPADES** (Swords)  
**ATTACK OTHER RABBITS**  
You may steal a random card and kick someone else *off-board*, if you're playing where they stand and start a duel with swords. You attack, and they defend, adding spade cards back and forth. And the weakest, in the end, is the one who'll leave the board.  
Do not reply with a draw; and when you're done, please discard. If the victim wins the brawl, they don't get to steal a card. When you steal a royal card, discard one if it's your fourth; go to **THE INCREMENT** part and swap carrots in accord.

**HEARTS** (Cups)  
**ACCESS TO QUEEN PALACES**  
As you enter a queen's hex, any player may demand you show six points to the rest, adding heart cards from your hand, or confirm that you possess the queen's card that marks the land. Yet, who asks to see your hearts, must first show cards of their own, proving they meet the demands for the access to this zone. They're kicked *off*, and lose those cards, right after your hearts are shown; but, if bluffing, you'll depart—*off you go!* your cover's blown.  
Any rabbits off the board may not nag those at the door.

**DIAMONDS** (Gold)  
**TRADE AT JACK PLAZAS**  
All spent cards are being sold; each jack's hex sells its own suit. Check what these posts have in store—when you play there, grab some loot. What you take, replace with gold like the icons tell you to, except the star(\*) on the board which means any suit will do. When the pile needs to reload, these markets run out of goods.  
**TRADE WHEN MEETING RABBITS**  
You may trade a suit for gold without showing what is offered. Swindlers will get thrown *off-board* if a short change is uncovered.

Try these **ADDITIONAL OPTIONS** once you have gone through the motions.

**PERSONAL ACES**  
Your first "Ace" is worth eleven—the others you spend are ones. As a record that it's spent then, keep it in front of your hands.

**PERMANENT PERSONAL ACES**  
Get an additional tip after spending your first Ace; it counts as one extra pip when needed at any place.

**WINDFALL OF PRIZES**  
You may win more than one prize, **THE LOTTERY** has no limits—whether cards that match the dice, or a roll of double digits.

**ADVANCED CITADEL**  
**Hearts** are used to grant you access; **Diamonds** buy you any loot; **Clubs** will get you flying passes—yet, to save flights, there's no suit.

**TRAIL OF CARROTS**  
**THE JOURNEY** may be prolonged if your carrot's on a hex; you may visit and go on to the place you're headed next.

**TIGHT SUITS**  
Have as many suits as players, and one of each **road tiles** too; for instance, with two contenders, the game will only use two.

**PATRIARCHAL VALUES**  
Have unequal value levels—if you don't think that is whack—from fourteen down to eleven, for the **Ace**, **King**, **Queen** & **Jack**.

**SHORT HANDS**  
You must be a wiser spender on the quest that you pursue; your hand of cards will be slender, up to six to hold on to.
